Our Services

Our Mission

Provide the highest quality hospice experience, unique to the journey of each individual and family.

Our Vision

Be the clear choice for hospice care in the communities we serve.

Dispel the Myths

Reaching out to Hospice means I have given up.

When a patient chooses Hospice, the patient has decided to live. Hospice is about living, not dying. The patient will receive more support, socialization, and individualized care than in any other care approach. According to the National Hospice & Palliative Care Organization, Hospice patients live a more fulfilled, often longer, life than patients with similar illnesses who do not have Hospice.

Hospice care is expensive.

Hospice is a unique type of care covered in full by Medicare, Medicaid and most insurances. We provide services based on patient and family need. Our goal is to keep the patient as independent and comfortable as possible, at home or a facility. Often, Hospice cuts costs for the patient/family by providing medications, equipment, and other needs paid for out of pocket without Hospice.

Hospice means I have to leave my home.

We provide care in homes and facilities. The patient/family decide on the most comfortable and safe environment – we come to you.

Families cannot provide care for a loved one with a life-threatening illness.

Many feel fulfilled by being involved in a loved one's care. With Hospice, the family is not alone – they can be involved as much or as little as they choose. Our team supports the patient and also their loved ones.

Hospice care is only available the last few days or weeks of life.

Choosing Hospice earlier allows our team to provide more. Many patients wish they had reached out sooner. Having our team involved allows for a better quality of life.

Be Proactive

1. Don't Wait

You may benefit from Hospice before you know it. Talk with your family or a trusted medical provider. Call us if you're unsure. When you need care, we're ready to provide it.

2. It's Your Choice

You have the right to use the Hospice YOU choose. We will work with any physician, hospital or facility to provide you the highest quality care in the industry. Ask for Shrivvers Hospice by name.

3. Call Us

If you are unsure, you don't have to wait for your provider to refer you. Call us – to reach one of our dedicated team members 24 hours a day, 7 days a week.

Shrivvers also offers Palliative Care!

If your medical condition doesn't qualify you for Hospice, our medical team can guide you to the appropriate type of care.

Feel the Love...

"When the Hospice nurse came through my door she gave me HOPE for the first time in months. Since that time, it has been uphill. Shrivvers Hospice has gone above and beyond to care for me and gives me something to look forward to each day. I enjoy so much more of my life now, with the Shrivvers Hospice Team sharing it with me."

Colleen

Shrivvers Hospice patient

"As I sit here, with tears in my eyes, I am beyond grateful for the love and support we received from Shrivvers Hospice. I have worked in Long Term Care (LTC) facilities for the past 12 years and have worked with multiple hospice groups. Shrivvers Hospice is by far the best experience I have encountered. My family and I will be eternally grateful."

Marie

Shrivvers Hospice patient family member

"Having others walk with us on this journey is more than helpful. It is life-changing. It is that ray of hope in the midst of complete darkness. This is how I would describe the Shrivvers Hospice program."

Debbie

Shrivvers Hospice patient family member
